Residential Service Application

Applying for residential service is easiest and most efficient using the secure online form below. **Please allow up to 2 business days for processing.** If you are unable to apply online, please [click here](#).

Note: The City of Port Angeles also has an electric utility that serves its customers within the city limits. Not sure if your address is served by the PUD? Click [here](#) for Service Area maps.

This form is not valid for New Construction Estimates or Commercial Accounts. For Commercial Service, please [click here](#). For new construction estimates prior to applying for your utility account, please [click here](#), or contact your local PUD office.

New Service Application Requirements:

Identity Theft Prevention is required by law. We require one piece of current, government-issued photo I.D. We use Social Security Numbers (SSN) to both verify your identity and conduct a credit check. Customers who do not provide their SSN may apply for service in person at a customer service office with two (2) pieces of current, government-issued photo I.D., and pay a billing deposit. Click [here](#) for the print version of the application and requirements.

A minimum of one business day's notice is required for service reconnect, disconnect or transfer between parties. If services are currently disconnected at the customer premises, the Main Service Disconnect (Main Breaker) must be in the open or "off" position prior to reconnection of service. If the Main is closed or "on" at the time of reconnection, services will not be connected and a Trip Charge will be applied to the account. **Note: If service has been disconnected for over a year, we require an L & I inspection in order to reconnect service, after which a request for reconnect form may be submitted here.**
